P1H1X6

If the past couple of years have highlighted anything about our daily lives, it is the shared virtues of having a beautiful place to nest, along with having the space to be in community with others. This home, one of the oldest stately residences in Huntsville, blends both a modern heritage vibe in its spacious renovated interior, while boasting several exterior entertaining areas on its generous downtown double lot. No detail was overlooked as the interior was re-imagined into an elegant and comfortable living space with three generous bedrooms, three bathrooms and a separate home office space with built-ins. The primary suite features a large adjoining 2nd floor deck in the trees overlooking the river, park and downtown area. Whether enjoying the generous lounge, stylish eat-in kitchen, grilling on the back deck or hosting friends at the fire pit, this home delivers an abundance of luxury and comfort. The ground level of this century home is currently occupied by a Chiropractic Practice. Ample parking provides space for residents and patients of the practice. Whether you are considering this property as a home or investment property the cliché location, location, location is applicable.
